PRESENTATIONS

Photo #1 - The new president, Lee Trainor, presents an engraved gavel to retiring president, Mr. Ralph H. Philo. The gavel was made out of Mahoe wood from Jamaica.

Photo #2 - Mr. Bill Whitman, newley elected director, presents his wife with the first life membership under the new by-laws. It was Mrs. Whitman's birthday and she had no idea a life membership in the AHS was to be her birthday present.

Photo #3 - L. to r. Mr. George Wright, Mr. Eric Golby and Mr. Ralph H. Philo.

Mr. Philo chose these two hard working, dedicated members to receive the service awards this year.

Mr. Wright received the award for the much needed help with photography and printing of the pictures in the Seed Pod. He also was active on the hybridization committee and spent many long hours working for the local chapter as well as the parent organization.

Mr. Golby, newly elected First Vice President, was chosen for his hard work in promoting the AHS and helping to smooth troubled waters both at the Annual Meeting last year and during his term of Second Vice President. Mr. Golby has been a good ambassador for the AHS.

Photo #4 - Mr. Eric Golby presents Mr. & Mrs. Lee Trainor with an upright "Bride" hibiscus plant grown on its own root system. The plant came from California where the "Bride" is normally grown on its own roots. Mr. Golby told Mr. Trainor that since he was taking over the reins of the AHS he would be so busy that he might not have much time for his real bride, Marge, therefore he might find another "Bride" welcome. Mr. Trainor gave his word that he would pass his new "Bride" around to any of the members interested.
